Overview

I am a fourth-year Software Engineering student at Ton Duc Thang University, currently seeking an Intern Backend & Mobile Engineer position in Ho Chi Minh City. My primary goal is to find a professional environment where I can gain real-world experience and develop my practical skills. I have a foundational understanding of Mobile technology and Backend application development, including familiarity with RESTful APIs, and I am always eager to learn and adapt to new technologies. Alongside my basic English communication skills, I am deeply committed to improving the quality of my work through continuous learning and dedication.
